## Variant 1 (via e-mail)

|                       | STEP 1                                       | STEP 2  | STEP 3                     | STEP 4               | STEP 5             |
|-----------------------|--|---|----------------------------|----------------------|--------------------|
|                       | Two railways/railway companies agree on      |   |                            |                      |                    |
|                       | necessity of allocation of a new border      |   |                            |                      |                    |
|                       | point or modification/deletion of the        |   |                            |                      |                    |
|                       | existing one.                                |   |                            |                      |                    |
|                       | They agree on administrator of which side    |   |                            |                      |                    |
|                       | is going to start the procedure (A), that is |   |                            |                      |                    |
|                       | which will enter the data concerning the     |   |                            |                      |                    |
|                       | point and which will check the data and add  |   |                            |                      |                    |
| D - 11 / 11           | the missing information (B).                 | Fills in the Course Co.                                       |                            |                      |                    |
| Railway/railway       |  | Fills in the form for allocation/modification/deletion of the |                            |                      |                    |
| company administrator |  | code. The form is send afterwards to                          |                            |                      |                    |
| (A)                   |  | the administrator B.  |                            |                      |                    |
| (A)                   |  | (The form will be placed on UIC and                           |                            |                      |                    |
|                       |  | OSŻD Web site)  |                            |                      |                    |
| Railway/railway       |  | osza wecsitt)   | Checks the data entered    |                      |                    |
| company administrator |  |   | by A and fills in the      |                      |                    |
| 1 3                   |  |   | missing data (country info |                      |                    |
| (B)                   |  |   | B). Sends the form to the  |                      |                    |
|                       |  |   | UIC Administrator (copy    |                      |                    |
|                       |  |   | to A)                      |                      |                    |
| UIC Administrator     |  |   |                            | Enters received      | Informs both A and |
|                       |  |   |                            | data into the system | B about allocation |
|                       |  |   |                            | (ENEE database),     | of the code.       |
|                       |  |   |                            | enter additional     |                    |
|                       |  |   |                            | information if       |                    |
|                       |  |   |                            | needed and allocate  |                    |
|                       |  |   |                            | the code.            |                    |
|                       |  |   |                            | Approves.            |                    |

## Variant 2 (via system)

|   | STEP 1  | STEP 2   | STEP 3                            | STEP 4  | STEP 5   | STEP 6   |
|---|---|--|-----------------------------------|---|--|--|
|   | Two railways/railway companies agree on necessity of allocation of a new border point or modification/deletion of the existing one.  They agree on administrator of which side is going to start the procedure (A), that is which will enter the data concerning the point and which will check the data and add the missing information (B). |  |                                   |   |  |  |
| Railway/railway<br>company<br>administrator |   | Enters the data into the system. Chooses from a list the B administrator, to whom will be send information that he can start proceed the |                                   |   |  |  |
| Railway/railway<br>company<br>administrator |   | procedure.   |                                   | Checks the data entered by A and adds information concerning the point (country info).  Approves. |  |  |
| System  UIC Administrator                   |   |  | Information from the system to B. |   | Allocates the code.<br>Sends the message to<br>the UIC<br>administrator. | Approves the code. Informs both A and B about closing the procedure. |
